4.A. NOVEMBER & DECEMBER 2014 COMPLIANCE REPORT

**DISCUSSION**

Caroline Sasaki reviewed the compliance report, noting the overall compliance percent has increased for most zones from November to December. In November, the Suburban 12 zone fell under 90%, and which resulted in a $500 per zone penalty. She continued that there were four calls which exceeded the maximum response times during the two months, three in the Suburban 12 zone and one in the Rural 20. The per call assessment associated with these totaled $162.75. No calls exceeded excessive response times allowed. Relating to exemptions, AMR requested five, all of which were weather related. In summary, the potential assessments for November and December were $941.75, and the recommended assessments were $709.25.

4.C. COMMITTEE REPORTS

DISCUSSION

Steve Murphy reported that the Research Committee met on January 20th, and formed two subcommittees; one with a short term goal headed by Ted Sayer, and another with long term plan headed by Tim Dienst. Their next meeting will be held on February 12th at 8:30am in the downstairs conference room.

Dr. Kiley reported the Medical Control Committee (MCC) met prior to this meeting, and discussed long term goals. The MCC is very much in favor of the collaborative approach that has been used for medical direction in the county, and wants to make a formal statement that the group is pleased that the agencies are working together and the medical directors are working together as well. Along that line, there are a variety of meetings that are already occurring, and the group doesn’t want to duplicate what is being handled appropriately at other levels. The group decided to change their meetings from six times a year to three meetings per year. The group also reviewed the high risk procedures that were performed in the last couple months, which were all IO lines, and performed appropriately. The new medicine ketamine that was approved at the state level was given five times, once for agitated delirium and four times for pain. Regarding spinal immobilization: since the new guidelines were implemented last fall, less patients are being immobilized and there’s been more use of the vacuum devices. The vacuum splints have been a huge success and are better tolerated. The number of spinal immobilizations were at 293 in August before the new guidelines, and have gone down to 144 in November, 134 in December, and 147 in January. The group is also considering whether to invite the Flight teams to be part of the MCC review process.

4.D. COMMUNITY RELATIONS REPORT

DISCUSSION

Laura Saenz reviewed the Community Relations report for December stating the highlight for December was the Home for the Holidays Program, in which they transported 16 patients during Christmas Eve and Christmas Day. In addition, the other events for December included Life without Lupus and the Cub Scout Ambulance Tour to name a few. Laura also stated that AMR is partnering with Pueblo AMR doing a weekly radio show called “Heartbeat Colorado” on 101.3, which airs Saturday and Sunday mornings at 8:00 am.

4.E. SCATTER MAP DATA

DISCUSSION

Laura Saenz reviewed the scatter map data for December. She pointed out that the Stratmoor car made a big difference with the exceptions in that area, which started the first of December. Dr. Kiley expressed her appreciation for AMR making that adjustment.

5.A. PARTICIPATING AGENCY IGA - BIG SANDY FIRE PROTECTION DISTRICT

Kenny Hodges presented the IGA from the Big Sandy Fire Protection District, and stated that this is the original template with no changes other than to fill in the district name.

5.D. PARTICIPATING AGENCY IGA - MANITOU SPRINGS PROTECTION DISTRICT

DISCUSSION

Kenny Hodges stated the Manitou Springs IGA is an information item for today, and a request for direction. He continued that Manitou Springs had expressed an interest in joining the ESA and becoming part of the contract with AMR. He stated that two steps would need to be taken to accomplish this. First, Manitou would need to enter into an IGA with the ESA, which he’s in the process of completing, as the usual template for the other districts will not apply. The other step that would need to be taken is for the ESA/AMR contract to be amended to include Manitou Springs in the exclusive area and to add response times for their area to the service area map.

Commissioner Littleton asked what precipitated Manitou’s interest in joining and what they were doing for service in the past. Kenny replied that AMR is providing service in the area, but there was limited contract material behind that. Chair Tatum added that there is a new fire chief in Manitou, who wanted to ensure coverage contractually. Councilmember Gieck asked how this would affect service in the current system, and Ted Sayer replied that AMR currently has an ambulance stationed in the Manitou Springs fire station. He continued that they have some logistical issues in their station, and there is discussion about moving the ambulance out of the station. Mr. Sayer added that AMR won’t change the number of ambulances on the street, but they may change from a 24 hour model covering that area to an ambulance running out of the City of Colorado Springs to cover Manitou Springs.

The board directed Mr. Hodges to proceed with the IGA between the ESA and Manitou Springs and to work with county procurement for the amendment to the ESA/AMR contract.

5.E. PARTICIPATING AGENCY IGA - DISTRICT STATUS

DISCUSSION

Caroline Sasaki reported that both Crystal Park and Peyton have verbally confirmed they’re working on the IGA with their boards, and that there has been no word from Edison. She continued that the IGA from Black Forest has been received, which will be presented next month.

5.F. AMBULANCE RE-CERTIFICATION

DISCUSSION

Caroline Sasaki addressed Appendix A, Section 4 of the ESA/AMR contract, which refers to the re-certification of frontline ambulances. She continued that unit 721 has had both the engine and the transmission replaced, and AMR is putting this car back in 911 service. This led to a general discussion about mileage and maintenance. Lastly, Ms. Sasaki asked the board how they would like to handle these requests on future agendas regarding action items vs. informational, and the board agreed that no motion would be necessary.

5.G. AUDIT UPDATE – PRIOR ESA

DISCUSSION

Ms. Sasaki reported that two agenda items will be going before the BoCC in March as the ESA contract administrator is currently out. One of the two items will be an approval of the audit, and the second will be a request for the distribution of the old ESA funds.

5.H. BOARD MEMBER/STAFF COMMENTS
Bill Normile brought attention to an article that appeared in *The Wall Street Journal*, February 2^{nd} entitled “No Place for a Heart Attack” which addressed the location where patients suffer a heart attack makes a big difference (patients who are already inside a hospital for other medical reasons vs. patients outside a hospital). The average time from electrocardiogram to treatment is 60 minutes vs. 129 minutes inside the hospital. There is a tenfold decrease (40% vs. 4%) in fatality rate when an ambulance is used. He expressed his gratitude to ambulance providers across the nation, especially AMR because AMR is the largest ambulance provider in the country.

MEETING ADJOURNED AT 3:49 P.M.
I. ESA COMPLIANCE REVIEW SUMMARY

Pursuant to the Intergovernmental Agreement Concerning the El Paso County Emergency Services Authority (“ESA”) dated April 1, 2014, El Paso County and the City of Fountain have created the ESA to oversee an exclusive contract to provide ground emergency ambulance service to the ESA’s service area within El Paso County. Appendix A, of the Ground Emergency Ambulance Services Contract between El Paso County Emergency Services Authority and American Medical Response of Colorado, Inc. (“Contractor”), which was effective July 1, 2014, provides that Contractor agrees that, in the event it fails to meet performance requirements set forth in the Contract, it shall pay assessments in the amount and manner set forth in Section 3 of Appendix A. The assessments represent a reasonable endeavor by the ESA and the Contractor to estimate a fair compensation for the foreseeable damage to the ESA and its residents due to Contractor’s failure to meet the performance standards set forth in the Contract. The assessments are in the nature of liquidated damages and are not punitive in nature. Payment by the Contractor of an assessment shall constitute a full release and satisfaction of the particular matter.

In accordance with Section 10 of the contract, the Contractor provided all required performance and compliance reports during the reporting period. The Contractor has reviewed and concurs with the contents of this report. A representative sampling and subsequent assessment of associated records for Code 3 calls documented in the Contractor’s submitted data indicated that records were accurately prepared and factually reported for January 2015.

E. **Exemptions** (3.d.) – Under the terms of the current contract, exemptions may be granted for “unusual circumstances beyond Contractor’s reasonable control.” These may include, without limitation, unusually severe weather conditions, disasters, difficult or restricted patient access, private roads, change of location, bad address, or other factors as determined in the sole discretion of the ESA. Exempted calls are excluded from calculations and do not count as an on-time responses.

   A. Responses canceled en route.
   B. Multiple units: Additional units' times are measured from the time the additional unit is requested until it arrives on scene.
   C. Breakdowns: If a unit breaks down at the scene, the response time is measured when the additional unit is requested until it arrives. If a unit breaks down en route to the scene, the response time is measured from the original time of request of the first unit until the replacement unit arrives.
   D. Good Cause (weather, road conditions, traffic, or system overload, etc.)

For the month of January 2015, the Contractor requested five Code 3 calls be exempted from the data to determine compliance with performance standards as required under the current contract. Four calls were weather related and one call was the second unit to the scene (call #7731, January 16th). On January 1st, El Paso County road crews were on a weather event, whereas AMR did not declare a weather event that day. On January 7th, both the County and AMR declared weather events.
