The goal is to dramatically increase the number of citizens trained in bystander CPR in Colorado Springs. He stated that Penrose St. Francis Hospital, Sky Sox and AMR will be co-sponsoring the event, and that they hope to break the Guinness Book of World Records record for the most people trained in CPR at one event. 4.A. AGREEMENT COMPLIANCE REPORT FOR JANUARY & FEBRUARY 2010

DISCUSSION
Eileen Gonzalez presented the agreement compliance report for January & February 2010. She reported one incidence of contractor Level 0 in January and two in February. The recommended assessments are \$2,834 for January 2010 and \$3,172 for February 2010, for a total of \$6,006. There were 26 calls that exceeded the maximum response time for the zone in January 2010, and 36 in February 2010. The contractor exceeded the 90% response standard for the Urban,

Suburban and Rural zones during both months, and exceeded the 92% systemwide response standard for both months.

The contractor referred 7 calls, all to Black Forest Fire/Rescue, in January 2010. One of those calls was a Code 2 call which is not subject to contractual response time standards. The contractor referred 15 calls in February 2010, one of which exceeded the response time for the zone. All except one of the referred calls in February were referred to Black Forest Fire/Rescue; the remaining call was referred to Fountain Fire Department. The contractor requested that 82 calls be exempted from the data to determine compliance with performance standards for January 2010 (55 due to severe weather), and 179 calls for February 2010, 158 of which were due to severe weather during four separate weather events. Eileen noted that the contractor had requested an exemption for one call on January 1, 2010, during a period that the Colorado Springs Police Department was on "cold reporting" status for high call volume and not severe weather; she recommends that this call not be exempted and has recalculated the compliance percentages to reflect this recommendation.

**ESA Performance & Compliance Report
March & April 2010**

I. ESA COMPLIANCE REVIEW SUMMARY

Pursuant to the Intergovernmental Agreement Concerning the El Paso County Emergency Services Agency (“ESA”) dated January 21, 2010, the City of Colorado Springs and El Paso County have created the ESA to oversee an exclusive contract to provide ground emergency ambulance service to the ESA’s service area within the City of Colorado Springs and El Paso County. Section 16 of the Ground Emergency Ambulance Services Contract between El Paso County Emergency Services Agency and American Medical Response of Colorado, Inc. (“Contractor”), which was effective January 1, 2009, provides that Contractor agrees that, in the event it fails to meet performance requirements set forth in the Contract, it shall pay assessments in the amount and manner set forth in Exhibit F of the Contract. The assessments represent a reasonable endeavor by the ESA and the Contractor to estimate a fair compensation for the foreseeable damage to the ESA and its residents due to Contractor’s failure to meet the performance standards set forth in the Contract. The assessments are in the nature of liquidated damages and are not punitive in nature. Payment by the Contractor of an assessment shall constitute a full release and satisfaction of the particular matter.

In accordance with Section 14 of the contract, the Contractor provided all required performance and compliance reports during the reporting period. The Contractor has reviewed and concurs with the contents of this report.

A representative sampling and subsequent assessment of associated records for Code 3 calls documented in the Contractor’s submitted data indicated that records were accurately prepared and factually reported for March and April 2010.

A. Assessment Summary

The data provided by the Contractor and reviewed by ESA staff indicated that the Contractor met the contractual response standards included in the contract, and had one incidence of contractor Level 0 during March and none in April. The total recommended assessment for March and April 2010 is \$6,630.00.

The reasons for each exemption are listed below and have been verified by staff. If the ESA Board chooses to disallow any or all of the exemptions indicated, then the performance reports must be recalculated to yield more precise results.
